DETAILED ACTION

The following is an examiner's statement of reasons for allowance: applicants argue that the Kline references show treatment of viral infections with the claimed range of neuraminidase whereas the Sedlacek references shown treatment of cancer which is non-analogous art. Further, they argue that there is no motivation apply the neuraminidase more than once in the art. These reasons are agreed with and thus the claims are allowed. Since the art only shows administration once and since the amount of enzyme is not taught in the context of cancer treatment only in the context of viral treatment the rejections are withdrawn and the case is being allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
